

Make a model to show how the Earth orbits the Sun

Name	
Cub Pack	

Today you found out about the Earth and the Sun. Use your new knowledge to answer these questions:

1. What is the real diameter (width) of the Sun in kilometres?
2. What is the real diameter of the Earth in kilometres?
3. How long does it take the Earth to orbit (go around) the Sun in days?

Label the drawing below and add the distance between the Earth and the Sun.

Extras:

Can you name the other planets in order from the Sun?

Sun

1. _____
2. _____
3. Earth
4. _____
5. _____
6. _____
7. _____
8. _____

Can you think of a good rhyme to help you remember the order of the planets?
