

MANAGEMENT SYSTEM CERTIFICATE

Certificate no.:
C777176

Initial certification date:
09 March 1994
(by different Certification body)

Valid:
29 May 2025 – 17 December 2026

This is to certify that the management system of
Rolls-Royce plc
Moor Lane, Derby, DE24 8BJ, United Kingdom
and the sites as mentioned in the appendix accompanying this certificate

has been found to conform to the Environmental Management System standard:
ISO 14001:2015

This certificate is valid for the following scope:

Research and development, design, manufacture of component parts and sub systems, assembly, test, maintenance, overhaul and in service support of gas turbine propulsion systems and their component parts, including associated procurement and support processes, support equipment, technical publications, and software. Electronic systems and software for propulsion systems, their installation on aircraft, and other safety critical applications. Products include flight control systems and engine controls systems. Design, development, manufacture, modification and in-service support of mechanical systems and components, electronic controls including software and hybrid circuits for use on aero engines, gas turbine installations and aircraft. Testing of development gas turbines propulsion systems. Research and development and design of component parts and sub-systems for prototype electronic drive systems including associated procurement. Sale, design, manufacture, sub-contract manufacture, testing, repair, overhaul, and in-service support for gas turbine systems and power electrical automation and control equipment for surface and sub-surface applications with high integrity safety critical systems. Program execution, design, manufacturing oversite, and technical support of naval gas turbine module products. Design, manufacture, service and overhaul of marine propulsion and control systems. Design and manufacture of marine power generator systems. Design, manufacture and overhaul of propeller foundry products. Design, production and servicing of engineered solutions for marine handling systems for the defence, marine and power generation markets, including winches, over boarding groups and related equipment for cables. Provision and through-life support of integrated, high integrity mechanical, electrical and electronic products and systems and associated documentation for naval and civil nuclear and civil radioactive and conventional applications. Design, development, manufacture, service and support of high-performance power generation, distribution and conversion systems. Manufacture of precision, pre-formed ceramics and investment shell materials for aerospace and land based gas turbines.

Place and date:
London, 29 May 2025

For the issuing office:
DNV - Business Assurance
5th Floor, Vivo Building, 30 Stamford Street,
London, SE1 9LQ, United Kingdom

John Pepper
Management Representative

Appendix to Certificate

Rolls-Royce plc

Locations included in the certification are as follows:

Site Name	Site Address	Site Scope
Rolls-Royce plc	Moor Lane, Derby, DE24 8BJ, United Kingdom	The research and development, design, manufacture of component parts and sub systems, assembly, test, maintenance, overhaul and in service support of gas turbine propulsion systems and their component parts, including associated procurement and support processes, support equipment, technical publications, and software. Electronic systems and software for propulsion systems, their installation, aircraft, and other safety critical applications. Products include flight control systems and engine controls systems.
Civil Aerospace & Defence Aerospace (Annesley)	Sherwood Enterprise Park, Annesley, Nottingham, NG15 0DR, United Kingdom	Manufacture of blisks for application in gas turbine propulsion systems, including associated processes.
Civil Aerospace & Defence Aerospace (Ansty)	Ansty Fan Case Facility, Pilot Way, Prospero, Ansty, Coventry, CV7 9JU, United Kingdom	Assembly and fabrication of fan cases for application in gas turbine propulsion systems, including associated processes.
Civil Aerospace & Defence Aerospace (Barnoldswick)	Skipton Road, Barnoldswick, Colne, BB18 5RU, United Kingdom	Manufacture of fan blades, stator assemblies, HP/IP Assemblies for application in gas turbine propulsion systems, including associated processes.
Civil Aerospace & Defence Aerospace (Birmingham)	The Derwent Building, 5000 Solihull Parkway, Birmingham Business Park, Birmingham, B37 7YP, United Kingdom	Design, development, manufacture, modification and in-service support of mechanical systems and components: electronic controls including software and hybrid circuits for use on aero engines, gas turbine installations and aircraft. Products include fuel, hydraulic and pneumatic engine controls, associated electronics interface systems, flight control systems and engine controls systems.

Site Name	Site Address	Site Scope
Civil Aerospace & Defence Aerospace (Bristol)	Gypsy Patch Lane, Filton, Bristol, BS34 7QE, United Kingdom	Design, manufacture of turbine blade castings, nozzle guide vanes, detailed components, casings. Fabrications, research and development, design, manufacture, assembly, test, maintenance, repair & overhaul, in service support for application in gas turbine propulsion systems, including associated processes. The research, system design, component development, and certification of: Equipment Monitoring Units (including software), engine controls, sensors, actuators, and fuel system components for gas turbine propulsion systems including the investigation of service events and the management of sub-tier suppliers. The research and development, manufacture and assembly of composite fan blades and cases for gas turbine engines.
Civil Aerospace & Defence Aerospace (Dahlewitz)	Rolls-Royce Deutschland Ltd & Co KG, Eschenweg 11, 15827 Dahlewitz, Germany	Research and development, engineering test services for mechanical behaviour testing, design, manufacture, assembly, test, maintenance, overhaul and in service support of gas turbine propulsion systems and their component parts including associated procurement, support equipment, technical publications, and software.
Civil Aerospace & Defence Aerospace (Denby)	Derby Road, Ripley, Denby, Derbyshire, DE5 8NX, United Kingdom	Manufacture of precision, pre-formed ceramics and investment shell materials for aerospace and land based gas turbines.
Civil Aerospace & Defence Aerospace (Derby)	Moor Lane, Derby, DE24 8BJ, United Kingdom	The research and development, design, manufacture of component parts and sub systems, assembly, test, maintenance, overhaul and in service support of gas turbine propulsion systems and their component parts, including associated procurement and support processes, support equipment, technical publications, and software. Electronic systems and software for propulsion systems, their installation, aircraft, and other safety critical applications. Products include flight control systems and engine controls systems.
Civil Aerospace & Defence Aerospace (Inchinnan)	Inchinnan Drive, Renfrew, Renfrewshire, PA4 9AF, United Kingdom	Manufacture of compressor aerofoils, turbine blades and shafts for application in gas turbine propulsion systems, including associated processes.
Civil Aerospace & Defence Aerospace (Montreal)	Rolls-Royce Canada Limited, 9500 Côte de Liesse, Lachine, Montreal, Québec, H8T 1A2, Canada	Maintenance, repair & overhaul, testing, development and field services of gas turbine propulsion systems and their ancillaries for aero applications and repair of industrial engine components.
Civil Aerospace & Defence Aerospace (Oberursel)	Rolls-Royce Deutschland Ltd & Co KG, Hohemarkstr. 60 - 70, 61440 Oberursel, Germany	Manufacture of component parts for application in gas turbine propulsion systems, including associated processes.

Site Name	Site Address	Site Scope
Civil Aerospace & Defence Aerospace (Rotherham)	Advanced manufacturing Park, Brunel Way, Brunel Way, Rotherham, South Yorkshire, S60 5WG, United Kingdom	Manufacture of turbine blades for application in gas turbine propulsion systems, including associated processes.
Civil Aerospace & Defence Aerospace (Seletar)	Rolls-Royce Singapore Pte Ltd, 1 Seletar Aerospace Crescent, Singapore 797565, Singapore	Manufacture of fan blades, maintenance, repair and in service support of propulsion systems including gas turbine with its associated processes and support functions.
Civil Aerospace & Defence Aerospace (Trentham)	Newstead Industrial Trading Estate, Stoke-on-Trent, Trentham, Staffordshire, ST4 8HX, United Kingdom	Manufacture of precision, pre-formed ceramics for aerospace and land based gas turbines.
Civil Aerospace & Defence Aerospace (Washington)	Radial Park Road, Washington, Sunderland, Tyne and Wear, NE38 9DA, United Kingdom	Manufacture of discs for application in gas turbine propulsion systems, including associated processes.
Defence (Bristol)	Naval/EA&C Filton, Rolls- Royce Plc, Gipsy Patch Lane, Filton, Bristol, BS34 7QE, United Kingdom	Sale, design, manufacture, subcontract manufacture, testing, repair, overhaul, and in-service support for gas turbine systems and power electrical automation and control equipment for surface and sub-surface applications with high integrity safety critical systems. Processes include research and development, software design and development, laboratory, project management, operations management, logistics, procurement, manufacturing, systems integration, installation, commissioning and training. Training includes the management of training facilities, course design and delivery.
Defence (Indianapolis, Branded Stator)	Rolls-Royce Corporation, 5345 Decatur Blvd, Indianapolis, Indiana, 46241, USA	Manufacture of banded stator products for application in gas turbine engines and power systems, including associated processes.
Defence (Indianapolis, Liberty Works)	Rolls-Royce Corporation, Excellence Building and Dock. 2039, South Tibbs Ave, Indianapolis, Indiana, 46241, USA	Design, research and development for gas turbine engines and power systems. Manufacture and test of gas turbine engines, power systems and associated processes.
Defence (Indianapolis, Meridian Centre)	Rolls-Royce Corporation, 450 South Meridian Street, Indianapolis, Indiana, 46225, USA	Design and support operations for gas turbine engines and power system and associated processes.
Defence (Indianapolis, Performance & Victory Building)	Rolls-Royce Corporation, 2359 South Tibbs Ave, Indianapolis, Indiana, 46241, USA	Manufacture, assembly, test, support and repair of gas turbine engines and power systems, including associated processes.
Defence (Indianapolis, Single Crystal)	Rolls-Royce Corporation, 5601 Fortune Circle, Indianapolis, Indiana, 46241, USA	Manufacture of Turbine Blades for application in gas turbine engines and power systems, including associated processes.
Defence (Winsford)	Powerfield Limited, Trading as, Rolls-Royce Distributed Generation Systems, Barlow Drive, Woodford Park, Winsford, Cheshire, CW7 2JZ, United Kingdom	Design, development, assembly, repair, service and support of highperformance power generation, distribution, and conversion systems, incorporating variable speed permanent magnet technology for defence, marine and other specialist applications and industries.

Site Name	Site Address	Site Scope
Defence - Naval (Sydney)	Rolls-Royce Australia Services Pty Limited, Suite 14.03, Level 14, 130 Pitt Street, Sydney, NSW, 2000, Australia	Management of service and repair of original Rolls-Royce equipment on customers' sites.
Defence - Submarines (Barrow-in-Furness)	Building D61, Devonshire House, Barrow-in-Furness, Cumbria, LA14 1AG, United Kingdom	Provision and through-life support of integrated, high integrity mechanical, electrical and electronic products and systems and associated documentation for naval and civil nuclear applications. Activities include support to build and commissioning, technical advice and technical oversight.
Defence - Submarines (Civil Nuclear, Derby)	Jubilee House, St Christopher's Way, Pride Park, Derby, Derbyshire, DE24 8JY, United Kingdom	Provision and through-life support of integrated, high integrity mechanical, electrical and electronic products and systems, and associated documentation for civil radioactive applications. Activities include research and development, mechanical & electrical design, project management, procurement, capability to manufacture, assembly, inspection and test, packaging and transport, customer training, component repair and engineering consultancy in respect of site waste and decommissioning.
Defence - Submarines (Civil Nuclear, Warrington)	303 Bridgewater Place, Birchwood Park, Warrington, WA3 6XF, United Kingdom	Provision and through-life support of integrated, high integrity mechanical, electrical and electronic products and systems, and associated documentation for civil radioactive applications. Activities include research and development, mechanical & electrical design, project management, procurement, capability to manufacture, assembly, inspection and test, packaging and transport, customer training, component repair and engineering consultancy in respect of site waste and decommissioning.
Defence - Submarines (Derby)	Raynesway, Derby, DE21 7XX, United Kingdom	Provision and through-life support of integrated, high integrity mechanical, electrical and electronic products and systems and associated documentation, for naval and civil nuclear and conventional applications. Activities include research and development, mechanical, electrical and software design, procurement, manufacture, assembly, inspection and test, packaging and transport, inservice support, customer training, component repair, safety case generation, plant operation and disposal.
Defence - Submarines (Faslane)	Faslane Site Office, HM Naval Base Clyde, Faslane, G84 8HL, United Kingdom	Provision and through-life support of integrated, high integrity mechanical, electrical and electronic products and systems, and associated documentation, for naval and civil nuclear applications. Activities include plant operation, packaging and transport, in-service support, technical advice and technical oversight.

Certificate no.: C777176
Place and date: London, 29 May 2025

Site Name	Site Address	Site Scope
Defence - Submarines (Plymouth)	Varbel Building N058, PC837, Devonport Royal Dockyard, Plymouth, PL1 4SG, United Kingdom	Provision and through-life support of integrated, high integrity mechanical, electrical and electronic products and systems, and associated documentation for naval and civil nuclear applications. Activities include in-service support, technical advice and technical oversight.
Defence - Submarines (Thurso)	Vulcan Nuclear Reactor Test Establishment, Dounreay, Thurso, Caithness, KW14 7TY, United Kingdom	Management of operations of the Vulcan Naval Reactor Test Establishment including contractor management, compliance auditing, procedure approval and appointment of safety personnel.
ET&S (Stennis)	Stennis Outdoor Test Facility, Rolls- Royce North America, H1 Test Site, Stennis Space Center, Mississippi, 39529, USA	Testing of development gas turbines propulsion systems, including associated processes.

Lack of fulfilment of conditions as set out in the Certification Agreement may render this Certificate invalid.

ACCREDITED UNIT: DNV Business Assurance UK Limited, 5th Floor, Vivo Building, 30 Stamford Street, London, SE1 9LQ, United Kingdom - TEL: +44(0) 203 816 4000.
