Message from our Chief Executive Officer

Rolls-Royce is one of the world's leading industrial technology companies, focused on world-class power and propulsion systems. We pioneer cutting-edge technologies that deliver the cleanest, safest and most competitive solutions to meet our planet's vital power needs.

We are committed to maintaining the highest ethical standards, behaviours and compliance. The Rolls-Royce Board and I have made it clear that we will not tolerate improper business conduct of any sort. Our zero tolerance approach applies to our own people, and to our suppliers.

Our Global Supplier Code of Conduct sets out the behaviours, practices and standards we expect to see demonstrated and complied with, all of which are based on our own Rolls-Royce Global Code of Conduct, policies and standards.

In order to do business together, we expect all suppliers to be ethical, responsible and to fully comply with all applicable laws and regulations.

At Rolls-Royce, we have a simple brand promise and set of values – we will operate safely, act with integrity, and be trusted to deliver excellence. We need your support as our suppliers, and that of our broader supply chain, to ensure that together we are able to live up to these promises and continue to be successful together.

Thank you

1 Introduction

We set high standards for the way we do business. This Global Supplier Code of Conduct (the Code) sets out minimum standards of behaviour and practices we require from our suppliers. We expect our suppliers to adhere to this Code, in addition to the provisions of any commercial terms agreed between Rolls-Royce plc and the supplier.

In the event that local law, regulation or rules impose stricter requirements than this Code, suppliers must comply with those requirements.

1.1 Purpose

The Code specifies the minimum standards of behaviour Rolls-Royce requires of our suppliers. The requirements identified in the Code are based on the principles of the Rolls-Royce Global Code of Conduct, and are mandated through the Rolls-Royce General Conditions of Purchase.

The purpose of the Code is to communicate Rolls-Royce's requirements and expectations to the global supply chain; it is freely available to view and can be downloaded from www.rolls-royce.com.

Suppliers are required to adhere and comply with the principles set out in this document.

1.2 Content, scope and applicability

The Code is applicable to all suppliers and partners who supply product or services related to Rolls-Royce contracts or purchase orders.

Suppliers are expected to cascade these principles to their own suppliers in order to ensure alignment across the supply chain. This may involve the establishment of supply chain management processes that integrate the requirements of this Code.

2. Operate safely

All suppliers must make proper provision for the health, safety and welfare of their employees, contractors, visitors and those in the community who may be affected by their operations. We expect suppliers to comply with legal and industry requirements and seek to implement best practice in their industries.
